

	Ion	If this is an anion, write anion	If this is a cation, write cation	If electrons were lost, state how many electrons were lost	If electrons were gained, state how many electrons were gained	If this ion will bond with a metal, write the formula if the metal is Aluminum	If this ion will bond with a nonmetal, write the formula if the nonmetal is Sulfur	Write the name of the compound that is formed
1	Ca ⁺²							
2	P ⁻³							
3	Fe ⁺³							
4	NH ₄ ⁺¹							
5	SO ₄ ⁻²							
6	Na ⁺¹							
7	O ⁻²							
8	Fe(III)							
9	Cl ⁻¹							
10	nitrate
