

Dear Parent/Guardian,

My name is John Putnam, and I am your child's science teacher this year. If you would be so kind, I would appreciate a few minutes of your time to answer and return the following survey. I intend to use this information as a way of planning my class to meet your expectations and the needs of your child. (Your child will receive extra credit for returning this survey.)

- *What are your expectations of your child in school?*

*Academically:*

*Behaviorally:*

- *What do you expect of me?*
- *What can your child and I expect from you?*
- *Are there any cultural considerations that I need to be aware of with respect to your child that may impact their learning?*
- *Are there any special things I need to know about how your child learns or will make them more successful in class?*
- *Please put any additional comments or concerns you may have on the back of this paper.*
- *What is the best way to get in touch with you if I have concerns about your child's success in class?*
